MY MISSION

Software Engineer whose passion is to learn, build, and teach independently and alongside other talented developers. Experienced with front and backend development using languages, frameworks, and tools such as JavaScript, React, Ruby/Rails, SQL, Agile, CSS/MUI/Chakra-UI, and HTML5. With a background in education and first response, I am inspired by technology that lifts the world up.

TECHNICAL SKILLS

JavaScript, React.js, JQuery, PHP, Ruby, Ruby on Rails, HTML5, CSS/SCSS/ChakraUI/Material-UI, CLI, PostgreSQL, relational databases, RESTful API, Active Record, Active Storage, Git, Postman

WORK EXPERIENCE

JackRabbit Design

Milton, MA

Web Development Intern

12/2022 - 03/2023

- Collaborated with developers, designers, and project managers to assist in the development of ongoing and upcoming projects
- Created responsive, pixel perfect web pages using HTML, SCSS, and Javascript/JQuery according to the approved designs
- Tackled complex and scalable Javascript/jQuery solutions for unique client requested designs
- Championed code challenge to test and improve the Javascript skills of current developers

Whitcom 911

Pullman, WA

Emergency 911 Call Taker and Dispatcher

04/2021 - 03/2022

- Dispatched calls to appropriate personnel depending on individual call situations for several jurisdictions servicing over 100,000 citizens in Washington State and Idaho
- Operated six computers, four speakers, one headset, and multiple calls and radio traffic at once

TECHNICAL PROJECTS

My Portfolio - [GitHub](#) | [Demo](#)

Visit my portfolio and see demonstrations of the skills I learned during my studies at Flatiron and my internship as a web developer at JackRabbit Design

- Wrote custom and unique designs with JavaScript and jQuery. My portfolio does not utilize any plugins or external code
- Created with cross-platform and cross-browser inconsistencies in mind so the viewing experience is the same across multiple platforms and browsers

Simple Loan Calculator - [GitHub](#) | [Demo](#)

Users can input values using slider or text inputs to calculate the various payments of a simple interest loan in real time

- Followed a specific design approved by the client and completed within a specified deadline
- Incorporated media queries to be completely responsive to screen resize and mobile devices

Hmail - [GitHub](#) | [Demo](#)

Users can create an Hmail account and send emails to other Hmail users

- Learned and integrated Active Storage using PATCH requests for profile pictures
- Utilized Material-UI to create a responsive design that functions for users with smaller screens

EDUCATION

Flatiron School Full Stack Software Engineering, Ruby on Rails and JavaScript/React program	Online 05/2022 - 08/2022
Washington State University Graduate Studies in Music Education	Pullman, WA 08/2019 - 12/2020
Berklee College of Music BPS in Guitar	Online 01/2018 - 12/2018
